CANADA MAY SUPPLY PLANE TO MOLLISONS

De Haviland Aircraft of Canada Offers New Ship for Flight

NEW YORK, July 26.—James and Mrs. Molaison were en route to Bridgeport, Conn., after a trans-Atlantic flight, decided they wanted to carry out their original plan of a flight from here to Bagdad, so they availed themselves of a plane from Canada.

After cracking up their plane the Molissons said they would make the flight right away because by the time they could make the plane the they could obtain a plane the same day.

But today R. A. Leader, managing director of the De Haviland Aircraft Company of Canada, said the Molissons would be furnished with a new plane if they wanted to continue their flight.

A report the molissons might change their plan to Canada was denied by the Canadian South America was discounted at their hotel headquarters today.

They were informed to find four planes. Non-encouragement of the association of ease; reduction of tariffs as the price of wheat imports; minimum protection; trade preferences and the like; and measures to increase the consumption of wheat.

Empire Talks Holding Stage

By GEORGE HAMBLETON
Canadian Press Writer

LONDON, July 26.—With the London Economic Conference awaiting only tomorrow's formal adjournment, the Empire talks again held their ground.

Major Walter Elliott, British Minister of Agriculture, said the Empire intended to restrict their exports of

Five Nations Reach Silver Agreement

London, July 26.—As far as possible the five nations representing countries to take 35,000,000 ounces of the metal of the first mine to be opened in the world in four years was completed today by Senator Kit Pittman of Nevada.

New Silver Strike Made

MINERAL FIND IS SENSATION OF BEAR LAKE

White Eagle Properties Showing Both Gold and Silver

FOSTER NORMAN, N.W.T., July 26.—A second silver strike has been discovered in Great Bear Lake area has been reported. The new strike was made by Joe Dillon, a prospector working the Gun Barrel inlet, twelve miles south of Yellowknife. It is the direct line with several discoveries made by St. Paul and on the eastern shore of the lake.

Prospectors who have seen it declare it to be of great value.

The Eagle mine is being cut up with two sections of the district. Taking over the properties the AZ syndicate on the Canadian river. While the Eagle had a crew of 15 men working for the past few weeks, the new strike has been unearthing several new veins which have been unearthened, and the White Eagle is showing both gold and silver veins which are making it the talk of the field.

Large tons of machinery and supplies have been freighted in to the White Eagle property and the work is progressing rapidly and personnel. It is stated thirteen new veins have been opened.

At Milwaukee, federal officials moved swiftly to remove Roger Touhy, the notorious gangster, from his clobbers to St. Paul, Minn., to stand trial on charges of having kidnapped and murdered James J. Hoffa, \$100,000 ransom. Officials at St. Paul claimed an "airtight" case against the kidnapper, saying that from four or six witnesses identified with him.

Justice Starts On Race With Crime

NEW YORK, July 26.—United States justice has begun catching up with a vengeance on the kidnappers.

In three cities prosecution either was being prepared or already underway in the case of the latest kidnappings in which nearly \$300,000 ransom was demanded, and at least \$150,000 paid.

At Milwaukee, federal officials moved swiftly to remove Roger Touhy, the notorious gangster, from his clobbers to St. Paul, Minn., to stand trial on charges of having kidnapped and murdered James J. Hoffa, \$100,000 ransom. Officials at St. Paul claimed an "airtight" case against the kidnapper, saying that from four or six witnesses identified with him.

POINT TO LEADER

Mr. Marion Kelly of Kansas City pointed out Walter McGehee, former Oregon City, on the witness stand yesterday, that the kidnappers who held her captive last month until \$30,000 ransom was paid, had been captured in the field.

The Campbell River dam is about one mile south of Ladysmith Point, the site of the original discovery.

TODAY'S ODDEST NEWS

CAT RETURNS TRAP AFTER EATING RAT

ROCK HILL, S.C., July 26.—A cat walked into the Sibley grocery store here and walked out again with a rat in its mouth and a mouse. Across the street the cat stalked, sat down, ate the rodent, then lay down and carried it back into the store.

FARMER FINDS WAY TO CUT EXPENSES

ALVA, Okla., July 26.—Jack McMurphy, farmer, says he has found a way to cut expenses. His son, he said, planted 16 acres of corn before he noticed the cost of getting it out. Now he plants in the middle. McMurphy did not replant the 16 acres, but the corn grew well.

WAGGON TAIF OF DOG CAUSES DEATH

GREENVILLE, Pa., July 26.—The waggon tail of a Shepherd dog knocked over a shotgun in the hands of its master and discharged the gun and killing his son, 14, leaving 10 others and sister of an original 17.

Representatives of opposing nationalities will be present at each of the important events in which they can be expected to be present.

Premier Bennett Will Take Rest

London, July 26.—Prime Minister R. B. Bennett will take a brief rest before he returns to Canada after a couple of months here to attend the opening of the new wheat conference and talks with United Kingdom and other Empire finance ministers.

Hon. E. N. Rhodes, Canadian finance minister, said the Canadian delegation staff will sail for home on the Empress of Canada, while the Prime Minister, who has been absent since June 1, will return to take a rest cure, will remain here.

Bennett is expected to go to Harrington, mineral springs resort on Vorkshire on Sunday.

Pay High Prices For Heads To Keep Evil Spirits Away

But Wa Wa Braves of Boron't Hunt Their Own

By ROBERT SINCLAIR

BRAMPTON, North Brabant, July 26.—Mad, swelling monsoon rains have blotted out India's north-east frontier like Venetian blinds, cutting off communications with Pernambuco. Now you see it, now you don't.

It is a wild, mosquito-infested land where the silences of houses were broken only by the roar of cattle drowning in pools.

Pigs and goats were driven into the mud and police and tax collectors were shooting at them.

India made for the steamer or the horse house, while trees and jungle undergrowth closed toward the horizon.

The deluge caught me in the bazaar, where red-cheeked Indian girls were buying all sorts of things on earth, finger bowls, ear rings, etc.

There was no place to buy a pipe, so I bought a long-haired man in tiger, dropping him in the mud.

AIMEE READY TO FIGHT OR COMPROMISE

Canadian-Born Evangelist is Still in Love With Hitler

REGINA, July 26.—Doubtless Hitler will seriously attempt a reconciliation with him, Aimee Semple McPherson, who expressed by members of her party when she arrived in Berlin today, told reporters.

Her attorney, Willard Andrews, who accompanied her from North America, said it was a "nick" of Hitler's stories.

Andrews, a native of Woodstock, Ont., said nothing had modified his assessment.

Another Hitler admirer, Dr. Wiley Evans, said today he expected that Hitler would remain in power.

Evans said today any action taken by Hitler would be supported by members of her Angelus Temple in Los Angeles.

If they want her to fight Hitler, Evans said, she will fight it, if they want compromise or surrender, she will comply with it.

The attorney had different ideas. He said without hesitation he would fight the Nazis.

Asked why Hitler had tried div-

WEDNESDAY, JULY 26

NO ELECTIONS THIS FALL

Despatches from Ottawa say arrangements are being made to hold by-elections to fill vacancies in the membership of the House of Commons. One Saskatchewan constituency and two ridings in Quebec are without representation.

The reasons for these are no general elections that fall either next or probably, of the failure of the world economic conference. Had that gathering reached agreements involving wide changes in national policies, it would have been quite in order for the voters of Canada to be given an opportunity to elect a new house to consider whether these should be ratified.

It is conceivable, too, that the Government may have decided that the opportunity to go to the country at this time when international problems and agreements could be made the subjects of attention; rather than wait a year and have to appeal for support on the ground that its track record had been a success and that it has made good the undertaking to abolish unemployment.

The conference, however, failed. That destroys the occasion for an election. It can be believed that it also destroys any impulse to go to the country just now, in view of the issues upon which the verdict would be given.

THE TIME TO "PEG"?

The price of wheat has been "pegged" in the United States, minimum figures being fixed and maximum prices offered for sale in the grain exchanges.

That somewhat changes the situation with respect to "pegging" in Canada. A year ago parliament was strongly urged to set a minimum price, considerably higher than the then ruling market price. That was refused on the ground that the risk to the national treasury would be too great. The taxpayers would stand to lose the spread between the market price and the fixed price.

Conditions have changed considerably in the meantime. The market price is now higher than the figure which the Government was asked to set as a minimum a year ago. The whole force of international sentiment is for higher, not lower, prices. That is recognized to be a necessity to world recovery.

Pegging now, at about the present market price, would involve little apparent risk to the taxpayers, and would give the market a definite lead. It should be safe to say that it is badly needed. The proposal to peg in an attempt to force prices upward was one thing. Pegging to hold a gain that has actually been made is something quite different.

The United States has taken that means to check panics and prevent price slumps. Canada might well follow the lead, and thus assure the farmer that the market will not go to pieces when he starts to sell the new crop.

5.66 PER CENT FOR RELIEF FUNDS

The Provincial Government has sold an issue of \$100,000 worth of twenty year bonds. The taxpayers will be glad to know they were sold to Canadian buyers, and presumably there is no foolish clause in the agreement making them payable on demand in U.S. State dollars, Italian liras or Japanese yen.

The bonds bear interest at four per cent. But they were sold at a discount, which makes the rate payable on the money received 5.66 per cent. That is better than some of the things being done in the financial markets. Manitoba has to pay 6.27 per cent. on an issue of \$3,500,000 recently sold.

The proceeds of the sale are to be used mainly to finance the government of the borrowing done in the market instead of from the Dominion Government, which has been the source of supply in recent years. The inference is that the Dominion either would not lend the money or demand a high rate of interest approximately 6 per cent.

That seems incredible. But it is equally incredible that the province would have borrowed elsewhere if it could have got the money from the Dominion at anything less than 5.66 per cent.

Unless there is some satisfactory ex-

planation forthcoming—the nature of which is hardly imaginable—the taxpayers of the province should remember this little incident. The Dominion could provide relief money at the cost of printing it. "Some money" policy comes too high when it forces the taxpayers to pay 5.66 per cent for money to pay out as "direct relief."

"SCARCE MONEY" A MYTH

Scarcity of money is, of course, the underlying and almost the only reason why the Jasper Highway is not an undertaking this year, as it is the offered and accepted reason why a thousand other construction jobs in Canada are being left undone while some hundreds of thousands of men are being supported by direct relief.

Other parts of the country are scarce, and there are other more thickly settled parts of the province where roads are bad and need building. But the Jasper Highway is not an undertaking of purely provincial importance. The Dominion, admittedly or not, is an important party and stands to gain through its construction.

A national park is at the far end of the projected highway. That was the reason for the road being planned in the first place. The Dominion should in fairness come in on the cost, as a matter of business.

And there is certainly no such scarcity of money at Ottawa as makes it impossible to finance the completion of the undertaking. Money is available, though not available there, or can be made available, in amounts required for "direct relief." So far as no province has yet appealed to Ottawa for direct relief money and been told there is none available, the scarce money is there before the government simply does not fit in this case.

Ottawa owes it to Alberta and to itself to help finish the Jasper Highway, would save itself a considerable amount of relief money by putting the job in hand now, and would be a wise purpose as easily as it gets money for "doles" the men who could and gladly would do the work. It is not scarcity of money that is holding up the Jasper Highway.

Forty Years Ago

From the Files of the Edmonton Bulletin

The project of an electric railway to quick and cheap transportation from the C. & E. railway station to the city of Edmonton was the subject of discussion on the north side of the river. It must command the attention of everyone interested in the advancement of this part of the country. This appears to be the most effective means whereby the difficulties of our present situation can be overcome, that with management it is within the power of those who have facilities for operating it such as are enjoyed by very few places in the world, not the tenth part of those which we have the system of public transport being so favored.

A baseball match between teams representing Edmonton and Lethbridge was played on the race track on Thursday afternoon. Edmonton won by a score of 45 to 28. The visiting team comprised: W. Sharpen, J. Allen, A. Lafferty, W. Deck, J. Morgan, W. McMahen, W. Ross, W. Clarke, B. Gainer. Edmonton team: A. Paterson, R. Nutt, D. Stewart, T. G. Lauder, T. Cairney, J. Mundie, G. McLean, W. Paxton, F. Kiel.

THIRTY YEARS AGO

The taxpayers yesterday voted down the bylaw to spend \$800 for a town gravel pit and nuisance ground.

A Dr. Duncoll D.L.S. has completed a map of the town.

The public reading room has been moved from the McLeod block to Laurendale liquor store.

Fifteen hundred German dinkards from Dakota will settle in Alberta.

J. C. Reid arrived yesterday from Lesser Slave Lake.

Mr. Gilroy and D. Wilson of the H.B. Co. at Vermillion are in town.

The Vogel Packing Co. have occupied their new block.

News has been received from the north of the death of Bishop Chisholm, spiritual father to R. G. Ross, of the Anglican church at Brandon.

Dr. A. Goodwin went to Vegreville yesterday.

TWENTY YEARS AGO

Mr. J. A. Reid of Regina has been appointed agent general for Alberta in London.

Vancouver: Eight Japanese have been released from Bell's Bay, an oil company village. They had crossed the Pacific from Japan in a sampan which had been built by themselves.

The captain put them ashore and put to sea again. A Canadian fishery cruiser is looking for the sampan. The men say they had paid the captain to land them somewhere near Seattle.

Port Arthur—James Conner, ex-M.P., is dead in Arisburn.

London—Marital law has been proclaimed in Fifecking and the northern Government is apparently in a desperate position.

TEN YEARS AGO

Weyburn, Saskatchewan: The court in the main part of the business district of that town today.

Major Duggan has issued an order that wheels of fortune will not be allowed to operate on the streets of Weyburn.

President Harding has left today on the return flight to the United States the first time that a head of state of the United States has stepped on Canadian soil.

It is proverbial that the devil is a much sicker beast when he is sick than when he is healthy. We should be sorry to hear that down in the United States the devil is beginning to feel devilish again. Nevertheless, the irony of this revolt that we head against the policy and programme of President Roosevelt must surely be that the Dominion either would not lend the money or demand a high rate of interest approximately 6 per cent.

That seems incredible. But it is equally incredible that the province would have borrowed elsewhere if it could have got the money from the Dominion at anything less than 5.66 per cent.

Unless there is some satisfactory ex-

SIDE GLANCES - By George Clark

U. S. NAVY OFFICER BY HIS SERVICE

"We should have invited some friends along. I get kinda tired just sitting here looking at you."

Something Better Demanded

The present and unanswerable indictment of our present system of relief is that it is done and done but done so that there is no hope in it. We have got to find a better way than the dole.

Major G. W. Northwood, appointed two years ago by the Canadian government to inspect relief in Manitoba, has announced that he is resigning the position because he is out of sympathy with the Government's policy. Major Northwood has come to the conclusion that payment of money by direct relief is wrong and that something better should be worked out.—Regina Leader Post.

From Winnipeg to Vancouver there is evidence of an irrepressible desire to replace direct relief as quickly as possible. The people of Vancouver are by no means the only ones to want to do this. There is a desire for a system to provide work for the unemployed, both to save them from the ill-effects of long idleness and dependence on public assistance, and to secure some return for the heavy expenditure on relief.—Winnipeg Free Press.

The experience of Regina is not unlike that of other Canadian cities. Money has been spent with virtually no return to the community that has to put up the cash. The money is gone and there is nothing in a material way to show for it. The people have had to wait to get it up receive no benefit. This policy is the "dole" in its worst form.—Regina Leader Post.

WORK-NOT DOLES

Time and again emphasis has been laid throughout the country on the correct cure for unemployment—work. Work awaits and abounds. There is hardly anybody who, giving thought to the matter, does not realize that there is a vast amount of work to be done.

The Alister, believe the most practical way out of our present situation, which is brought about by a combination of psychological and material factors, is by the provision of work of a self-fulfilling nature. We believe the psychological factor—lack of confidence—can be removed by making the general credit behind a work program of national proportions. We believe that the material difficulties will be met by the same time; we believe that work at fair wages can be made available, to the consequent betterment of conditions all round and at no expense to the city or the province. We believe that the best way to meet the cost of the relief is to let the unemployed earn the cost of their own maintenance.

It has been pointed out in admirably brief and plain manner by Alderman J. H. Ross that the present payments on relief direct and sufficient to sustain the interest and charges on what amounts to millions of dollars. The particular difficulty by the city of Calgary since this year, to relief participants, would alone pay interest charges on works to the capital value of millions of dollars. We believe that the work should be done by the employing out this equivalent amount of charge. Can anyone even estimate the valuable reparation on the business life of this city if our unemployed were mostly employed at fair wages? What would be the effect on the market value of the city? Has anyone ever heard of the moonball effect of employment in creating employment? In the answer to these questions lies the justification for public insistence on the removal of unemployment as a permanent demoralizing cancer from our economic life—Calgary Herald.

Hostile milk is the best to use, but, if this is not obtainable and it is found necessary to use a milk diet is to use an ounce glass of milk every hour during the day. The milk should be warm and sweet and slightly warmed by placing the glass in a pan of water which is warm but not hot enough to burn the hands. The milk should be stirred slowly through a straw and taken exactly as the hour comes. No water should be added. The milk must be held in the mouth for a long time before swallowing. It is best to let the milk stand for a short time after it has been prepared.

Duncan, the second son, being already married, settled near his father. His son was born July 17, 1917. Duncan took his wife and son in a tent in a shelter of the woods, but the Highlanders promptly ran their boats ashore and chased them inland as far as the present village of Waterford. On the way back he encamped on what is now lot 17 of the 4th concession of the town of Waterford. At the close of the war with France, Donald settled in New Jersey, and as a master of course.

The Mail Bag

WANTS MUNICIPAL DAIRY

Editor Bulletin: The milk problem is a live issue and is much discussed in the daily papers. At present the farmers do not get the cost of production. They say they cannot produce for less than \$10 per 100 lbs., while the price is \$8 per 100 lbs. After paying 3c for carriage the farmer receives 3c a quart for his milk but when the consumer pays 25c it is not a fair division.

There is not a remedy for this situation so that Edmonton citizens will be able to secure milk at a fair and own their cows and equipment and still have a reasonable profit. The balance of land could be secured as low as 6 and 7 cents a quart.

There is about enough pasture land in the city limits from which milk can be obtained. The question is how much land is required to produce a reasonable quantity of milk. The city of Edmonton has a large acreage of land available for pasture.

It is suggested that the city should purchase land outside the city boundaries and lease it to the farmers. The city could then have a municipal dairy and the farmers could supply the city with milk at a reasonable price.

It is suggested that the city should have a municipal dairy and the farmers could supply the city with milk at a reasonable price.

It is suggested that the city should have a municipal dairy and the farmers could supply the city with milk at a reasonable price.

Health and Diet Advice

By Dr. Frank McCoy

MILK DIET FOR STOMACH ULCERS
About five out of ten cases of ulcers will report such distressing disturbances as nausea and vomiting, and nearly all of them report having noted belching, flatulence, a gnawing sensation, a bloated feeling and other disturbances which show that digestion is not going on normally.

The ulcer, which may be most frightening to the patient, is the vomiting of blood. This bleeding is caused by a tearing open of small blood vessels located in the mucous lining of the stomach. If the blood remains a long time in the stomach it may have a dark brown color like coffee grounds, but, if vomited early, it may be a bright red.

Dr. F. McCoy says: "It appears the body is black tarry consistency of the stools. The vomiting of blood does not necessarily indicate stomach ulcers since it is possible for one to swallow blood, say, as from a bleeding in the nose which may afterwards appear in the stool. The vomit may lose a large amount of blood if the hemorrhaging is severe. Few people die from this cause although the gradual and continued loss of blood may induce anemia.

There should always be an examination with the x-ray whenever stomach ulcers are suspected to determine the exact location of the ulcer.

The experience of Regina is not unlike that of other Canadian cities. Money has been spent with virtually no return to the community that has to put up the cash. The money is gone and there is nothing in a material way to show for it. The people have had to wait to get it up receive no benefit. This policy is the "dole" in its worst form.—Regina Leader Post.

There should always be an examination with the x-ray whenever stomach ulcers are suspected to determine the exact location of the ulcer.

The x-ray whenever stomach ulcers are suspected to determine the exact location of the ulcer.

Time and again emphasis has been laid throughout the country on the correct cure for unemployment—work. Work awaits and abounds. There is hardly anybody who, giving thought to the matter, does not realize that there is a vast amount of work to be done.

The Alister, believe the most practical way out of our present situation, which is brought about by a combination of psychological and material factors, is by the provision of work of a self-fulfilling nature. We believe the psychological factor—lack of confidence—can be removed by making the general credit behind a work program of national proportions. We believe that the material difficulties will be met by the same time; we believe that work at fair wages can be made available, to the consequent betterment of conditions all round and at no expense to the city or the province. We believe that the best way to meet the cost of the relief is to let the unemployed earn the cost of their own maintenance.

It has been pointed out in admirably brief and plain manner by Alderman J. H. Ross that the present payments on relief direct and sufficient to sustain the interest and charges on what amounts to millions of dollars.

The milk diet is to use an ounce glass of milk every hour during the day. The milk should be warm and sweet and slightly warmed by placing the glass in a pan of water which is warm but not hot enough to burn the hands. The milk should be stirred slowly through a straw and taken exactly as the hour comes. No water should be added. The milk must be held in the mouth for a long time before swallowing. It is best to let the milk stand for a short time after it has been prepared.

The best method for taking the milk diet is to use an eight ounce glass of milk every hour during the day. The milk should be warm and sweet and slightly warmed by placing the glass in a pan of water which is warm but not hot enough to burn the hands. The milk should be stirred slowly through a straw and taken exactly as the hour comes. No water should be added. The milk must be held in the mouth for a long time before swallowing. Red Deer Fair Success

FORTY-THIRD ANNUAL SHOW IS AUSPICIOUS

Attendance Supplied From All Parts of Province; Fine Attractions

RED DEER, July 26.—Wednesday, the second day of Red Deer's big annual fair was a great success. The weather was hot and clear all day long and people from the city and from the country district turned out in large numbers.

President E. S. Hogg of the agricultural committee, together with Mayor W. P. Code, of Red Deer, officially opened the fair in the afternoon.

It was the forty-third annual fair and while the society has gone through good times and bad to maintain a strong position, it is still a success in spite of present conditions.

The attractions on the platform in front of the arena were opened on Tuesday afternoon with a pleasing variety. The Calgary Girl's Pie Show had a fine appearance and with their stirring numbers and clever dance offerings made quite a hit. There was also a clever classical dancer with a number of her pupils from Red Deer Boys' and Girls' High Schools and other numbers. Two young Red Deer boys, McKay and Muir, under the direction of Mr. G. J. H. Muller, put on some smart acrobatic work to make a real hit with the crowd.

There were many exhibits presented both afternoon and evening and the main grandstand was packed with people. The show began over crowd into the second stand.

Cattle shows, housing a splendid display of cattle, brought many visitors during the day and the fine animals, including the Shetland Ponies, horses, sheep and swine all drew their share of attention and there were many exhibits of farm animals among them. In the Art Building, there was a fair showing of talents of local girls which drew much favorable comment. The Industrial Building housed a variety of commercial and educational nature.

The drawbridge was under way on Tuesday. The Elks with a great variety of booths had a busy day, while the Royal Canadian Legion, Canadian Shows which were in operation also drew their share of patronage.

Red Deer Fair Has Strong Director Body

RED DEER, July 26.—Credit for the great success of the fair this year is given to the fine executive and directorate of able and energetic men who have worked hard to put the exhibition over.

E. S. Hogg is president and R. S. Gillquist, secretary-treasurer of the Red Deer Agricultural Society. A. L. Forrester, A. G. McTaggart, E. P. Cronquist, R. A. Vanlycke, E. H. Plaist, G. J. Hunter, J. H. D. Turnbull, R. S. Gilpin, R. S. Gillepsie, V. Bjorklund, H. Gilchrist, B. W. Bennett, H. Smith, Mrs. E. H. Plaist, Mrs. J. G. Lawrence, F. A. Stewart, J. Henderson, L. Dominy, J. Wigan, Mrs. E. H. Plaist, Mrs. E. W. Bjorklund, Mrs. E. H. Hogg, Mrs. G. Stone, Mrs. E. Greig, Mrs. J. A. Jarvis, Mrs. R. A. Vanlycke, Mrs. E. H. Plaist.

The committees which have been responsible for the work of the fair in connection with getting ready for the fair and the handling of different departments are the following:

The Women's Page -- Society, Weddings, Clubs, Sports

Municipal And
Mayfair Win
Interclub Golf

Four Women's Clubs Play
Games in Season's
Series

Inter-club games in the season's series were played on Tuesday when games postponed from Friday were arranged, between the Municipal and Mayfair Club at the Community Centre. The Municipal won by four points, their players being Mrs. Horan, Miss Mountfield, Mrs. McLean, Mrs. Watson, Mrs. Mrs. Cozens, Mrs. Roberts and Mrs. Cairns. Playing for the Community were Mrs. Lewes, Mrs. Hardisty, Mrs. Cunningham, Mrs. Savage, Mrs. Benson, Mrs. Nequin, Mrs. Heskell and Mrs. Watson.

Mayfair won from the Highlanders at games played at the Highlands on Friday by 2½ points. Mayfair players were Mrs. Horan, Mrs. O'Donnell, Mrs. McLean, Mrs. Gould, Mrs. Ronald Pearson, Miss Lilian Horst, Miss Eager and Miss Minnie. Highlanders were Mrs. Mrs. Muir, Mrs. Taylor, Mrs. Dunsford, Mrs. Harper, Mrs. Miller, Mrs. Bunting, Mrs. Finch and Miss Teeter.

A change in schedule is being made.

JASPER JOTTINGS BY FAY PARKER

CLOSES beside Whistler Creek the Jasper Boy Scouts are in camp under the eye of the master of ceremonies, Jim Darin. Hiking, swimming, and craftswork take up most of the day. Some of the boys were hosts to their friends at a big bonfire and songfest followed by a dance. Many unusual accomplishments are being developed by the boys, for instance, Jack Arden, the local pipe maker, and his gooseberry pease were said to be better even than McDonald's. Tom Lester, Cyril Harrington and Jimmie Harrington of Spruce River are at the camp and also Frank Lawrence of Edmonton.

The wardens who transported the 1000 Karloons trudged dry feet to the Temple of the Woods at Jasper. Report much snow still in the Valley, and the drifts at the MacBarron Pass were high. The weather here is fine chance for a mid-mountain snowshoe party. We hear that a gang of 1500 men with members are going into the Tonquin next week. Tuesday, the following day, we will have a long, hard tramp into the valley by way of Headless Creek. High Munro, Fred Allen, Tom Turner and Jim Rennie.

Softball has taken a firm hold on Jasper, and Monday night an exciting game between the ladies' teams was played. The ladies' team gave the victory to the ladies, but with a close margin. Cliff Johnson, the local baseball battery for the winning team was; Nan Davis, pitcher, Jean Gaddy, catcher, and Ruthie and Taylor as catchers, with Carl Knutson as center. Next Saturday, the ladies' baseball club will play war on the Lodge University students and it is anybody's game right now. The girls from the Ladies' Club will journey to Edmonton on Sunday.

The Hot Springs are the popular resort for Jasperites, as well as the visitors, for it was estimated that about 1500 journeyed over the mountains to the springs last 100 in camp at the springs. The medicinal value of the water draws hundreds there yearly.

Mrs. J. S. Woodward, the head of the Canadian Commonwealth Federation passed through Jasper on Monday enroute to the Coast for a vacation. He attended the strenuous convention in Regina. Mr. Woodward is much pleased with the work done and commented that he may stop in Jasper on his way to Winnipeg next month.

The annual Picnic and annual picnic of Kiddle's Day on August second, and it is safe to say that Jasperites in the town that has day marked on the calendar, for it is a big day for the young ones. The weather is looking well see another of the popular jiltie dances at Lake Annette that the Kiddle's Day.

Father Wheeler, who has been in charge of the parish of Our Lady of Lourdes since the amalgamation of the church and the old fine club bag and purse of money as expressions of goodwill from the parishioners. Father Wheeler is in charge of the work here for the past eight years, and his departure was a sad loss. He was greeted by his many friends, for he has endeared himself to many outside the church. Mr. Donald McDonald was in charge of the arrangements for the farewell party held in his honour by the other members of the parish.

On Sunday, a delegation of representatives of the Jasper Chamber of Commerce motored to Edmonton to meet the Provincial Minister of Public Works on the subject of surfacing the Jasper Highway. They joined him on his return to Jasper on the same errand. Mr. A. H. Webb, president of the Jasper Chamber of Commerce, Mr. W. C. Jeffery, Edd Neffor, F. A. Jackman and Jack Otto. Although uninterested in the highway, they promise, these men feel that by keeping the issue alive, action will be taken.

The Jasper Club has served to the relatives and a few friends present immediately after the ceremony. They are now honeymooning at Lake Louise, which will make their home in Jasper near Campion.

Weddings

RAKE-RASMUSSEN

DONALDA, July 26.—The home of Mr. and Mrs. J. R. Rake was the scene of a quiet wedding on Saturday evening on Sunday evening at five o'clock when their elder daughter, Richard Arthur Rake, married Mrs. Elizabeth (Betty) Rasmussen, the bride's brother's wife.

The ceremony took place on the lawn in front of the residence and flowers. Rev. J. M. Fawcett officiated.

The bride was charming in a dress of pink chiffon embossed with bouquet of orange roses and lilies of the valley.

Mr. and Mrs. Rake have been married in floral chiffon and white lace.

Mrs. C. L. Anderson of Egerton Park, Mrs. C. B. Johnson, Richard Rasmussen, the bride's brother, and the bride's mother, Mrs. Hesterna Ottosen sang "I Love You."

Dr. J. G. Dinsmore has served to the relatives and a few friends present immediately after the ceremony. They are now honeymooning at Lake Louise, which will make their home in Jasper near Campion.

FERGUSON-BROTHERTON

A quiet wedding took place at St. Stephen's College, Edmonton, on Saturday evening. The bride, Mrs. Myrtle Irene, daughter of Mr. and Mrs. William Brotherton of Jasper, was married to Mr. George Ferguson, son of Mr. and Mrs. James Ferguson of Jasper.

Mr. and Mrs. C. O. Johnston of Winnipeg, formerly of Calgary and now residing in Edmonton, were reading a day.

Mr. and Mrs. J. B. Bremer is a visitor in Jasper.

Regular meetings of the Loyalty Central Christian Church are being held in the church on Saturday evenings.

At 8:30 p.m. Mrs. Luker is the dramatic leader and Mrs. Martin and Mrs. Steel will be guests.

W. A. is unemployed. Married Men meeting in Athlon Hall at 2:30 p.m.

STARS' BABIES HAVE A PARTY

Well Known Players of Filmland and Their Young Hopefuls Show Happy Domesticity in Hollywood

Left, Helen Twelvetrees and son, Jack Woody, Jr.; centre, Jobyna Ralston and baby, Richard Arden; right, Arlene Judge, with Charles Wesley Ruggles.

By LILLIAN CAMPBELL

With divorce proceedings and rumors thereof, "rearing their ugly heads," as the dramatic writers say, the stars of the screen are threatening to sever marital relations in many well known homes. Among them, the most prominent is the home of Jobyna Ralston in Hollywood. And they are the domiciles of film folk, too. Among the stars whose mothers and their babies are attending a party at the home of Mr. and Mrs. Richard Arden, nee Jack Twelvetrees—Mrs. Jack Woody, in

private life—with her young son, Richard Arden, one of the latest arrivals in film circles on "Dick" Arden first became well known as "Wing," the story of a World War I hero. His wife, Jobyna was for years Harold Lloyd's leading woman. She hasn't had a leading role in a picture since. Her husband is Wesley Ruggles, rising young screen director, and his young name sake, Wesley, is Master Charles Wesley Ruggles. So you see.

Film Men Defy Strikers

ALL PLANTS IN HOLLYWOOD AT WORK BUT TWO

Conflicting Claims Made As Studio Gates Closed With Applicants

HOLLYWOOD, Cal., July 26.—Conflicting claims as to the effects of a strike called among sound technicians in the motion picture industry were made today, producers insisting their men were working under normal conditions, while some who have been reduced program and one union executive contend no work has been done since 700 cameras had walked out.

The employees gates at the studios closed to the public, men and women looking for work in response to advertisements offering employment to those whose services would bring the figure up to normal.

There was no picking up of the strike, but there were disturbances. The strike had hit inception at Columbia in a dispute over wages.

Public Preview Thursday Night

It is very rarely that the Capitol theatre presents a public preview these days, but Manager Wilson is so impressed with the Universal super production "The Phantom Broadcast" that he has decided to put on a special preview of this musical hit which will commence promptly at 11:15 p.m. on Thursday. The show will be short, but the stars and those who intend seeing this picture first should be in their seats early. The time stated above shows the time latest. The showing will last for one and a half hours.

Trial Separation May Solve Problem

HOLLYWOOD, July 26.—Gloria Stuart, screen actress, and Blair Gordon Newell, her estranged husband, disclosed Tuesday they are beginning a trial separation after an effort to save their marriage, which took place five years ago.

The couple said conflicting claims of irreconcilable differences, including incapacity, had caused them to separate. Miss Stuart, 31, and Mr. Newell, 30, played 17 feature-length films together during the 10 months. She said she has been at the studio every day and frequently late at night.

Being Wife And Star Is Difficult

NEW YORK, July 26.—Jeanne McDonald, the musical comedy actress, whose picture was returned from an European tour Tuesday and told ship news reporters that movie careers were not compatible with marriage.

Miss Ritchey, her manager, whom she has been separated from for two years, stood by her.

"I absolutely share my point of view—don't you Bob?" asked.

Bob had made a noise like a groan, and called himself an "exception."

The Sargasso Sea, the area of calm water surrounded by swift Gulf streams and thickly studded with gulf weed, is nearly as large as the European continent.

Americans Held In Jail By Spanish

LONDON, July 26.—The British Commonwealth of nations was one of the greatest powers participating in the World Empire Conference, the Prince of Wales declared yesterday in his speech to the sixth biennial conference of the British Empire Service League at a hotel here.

Because of our position we can never have any narrow national interests, he said. We are one of the greatest powers in the world to have no narrow individualistic狭窄的 interests, but we hold by a great bond, a very great thing in present times.

The prince said that after 10 years the British Empire Service League had become a powerful international organization and among governments in all parts of the Commonwealth the spirit of cooperation of the Empire had suffered severely during the last 10 years. War veterans of all countries had labored under burdens with great fortitude, he said, because they knew their service was sacrosanct.

He held that the time had come when it was up to them to help others who were not being treated the same way.

The heir to the throne had a telephone from King George confirming property to the League.

REGINA, July 26.—Speedy American bimonthly in Regina, Captain Frank Haynes, reported yesterday after completing the first non-stop flight from New York to Regina.

Haynes, the charge assaultant a civil guard, has led the state department in the search for the missing pilot of the plane which went down in the Missouri River near the Canadian border.

He will conduct further tests when making the return flight, which is expected to take place Saturday.

Hawks swooped down from the clouds in the hue of a setting sun to land on the roof of the municipal airport. The birds, which had been following the 14-passenger flight were more successful in the eastern section of the city than in the west.

He will conduct further tests when making the return flight, which is expected to take place Saturday.

Speakers Tell Of Flying The Mail In Northland

**Pilot C. H. Dickins,
R. W. Hale, Address
Postmasters' Parley**

**HUGE CROWDS
SEE FAIR AT
LLOYDMINSTER**

**Fine List of Attractions
Draws Greatest Atten-
dence in Five Years**

LLOYDMINSTER, July 26.—The second day of the exhibition was a record breaker and the crowd that passed through the gates yesterday was larger than any that had visited the border town fair in its history.

It was like the old days of prosperity to see the grand stand crowded with people, the grandstand and in the evening the stand was all too small to accommodate the great number of visitors in the grand stand area was covered with people sitting and standing on the grassy slopes. It was impossible to move on the midway plot.

Mayor Daniel K. Knott of Edmonton, who was in the city officially in the afternoon, wishing the Lloydminster Exhibition board all success, said the attendance was good.

Mr. Knott, as visitors to the fair were Paul W. Anderson, manager of the Edmonton Exhibitors; Mr. Munro, superintendent of C.N.R.; Mr. Bell, district freight agent; R. J. Macmillan, manager of the office both of the C.N.R. Edmonton, and Mr. G. M. McWhinney, manager of the Edmonton Chamber of Commerce.

SHIELDS PRESENTED

The shield to accompany the first prize for the best dairy heifer in the yearling class was presented by Miss Betty McCusger by Mr. Anderson, who also presented the competition shield to the best exhibitor of the best pure-bred beef cattle at the fair to Mr. Judding, Mr. Judding, who has 100 head of hisitors on their excellent showing.

**Great Advances Made
in Aviation in North Due
to Airmail**

Flying the Royal mail through the wild and rugged north country, parts of which have been conquered only by airplane, was described as the main achievement of the convention of the Alberta Postmasters' Association, Tuesday, by R. W. Hale, district superintendent of postal service for the Edmonton district. He was joined by Marcelle local manager for Canadian Airways.

He spoke of the arduous task of flying the mail through the barren lands and the immense possibilities that airmail holds for the vast north. The mail is carried the parallel north to the Arctic ocean.

Gregory, who spoke on behalf of the Postmasters' Association, said the mail was flying on the north country.

GOOD FLYING

Explaining the great advances in aviation in the north, Mr. Dickins explained that during the summer months good flying conditions of the country was secured. Out of the total air-mile trip of 1,400 miles, the mail was carried 1,000 miles by air, leaving the Arctic Ocean, there were only 150 miles of rapids where fliers could have had trouble.

Had it not been for the postal department, he said, flying was off.

**MYSTERY CRASH
CAUSES COMMENT**

A mystery crash between two cars on the intersection of Forest ave. and Norwood Boulevard at 9:30 p.m. Tuesday night caused a great traffic snarl still in the dark at 2 a.m. Wednesday. One man, name unknown, was seen to get out and make illegal information in the dark. Other games played were Lashburn 10, Maidstone 10, Marshall 15, McLean 10, Lethbridge 10, Pinman 7, and Brandon 10.

With the softball tournament after a hard fought game with Marshall with a score of 10-10, the last game played were Lashburn 10, Maidstone 10, Marshall 15, McLean 10, Lethbridge 10, Pinman 7, and Brandon 10.

According to stories of eye-witnesses, the crash occurred when one couple was proceeding west along Norwood and stopped on the black block away from the Alexandra hospital and car park.

Details of the accident were taken briefly with the insurance schemes in effect for the postmaster.

TALKS THAN 1915

Postmaster's weaknesses in the system of regulations made in postmaster's earnings. Mr. Sample said that the postmen had received more than the 10 per cent increase brought into force on Jan. 1, 1933, and that their commissions were less due to the fact that they were not paid.

The salaries of the employees were worked out on a revenue and commission basis and "there would have been substantially reduced because of business conditions," he de-

Continued: "Many postmasters have already taken substantial increases in their earnings after April 1, 1931, they were still required to take a 10 per cent cut and the same cut was made in their commissions less due to the fact that they were not paid."

"But we have no details as only one of the occupants of the two cars had been killed," was the official announcement.

**CHILD WELFARE
CLINIC ACTIVE**

By the time the provincial child welfare clinic would have its season's activities in August it will have visited all 13 districts with 200 points of interest, according to government officials.

This is the only clinical work being done by the department this year, the regular visiting clinics have been discontinued.

The clinic commenced its work in May and has visited 13 districts.

"Many residents in the rural areas have been interested in the clinic's services.

All point reported many chil-

dren in the rural areas in the

territory of the dispute between Argentina and Chile over the Gran Chaco territory.

Statistics show cancer in less prevalent in the Far East than in American or European countries.

Rails on telephone boxes in the London area alone are responsible for a loss of 1,200 monthly.

Quite Nice Gift

WASHINGTON, July 26.—New Deal, a spirited chestnut horse, came to the White House Sunday from Missouri for President Roosevelt's birthday. The horse and some words of thanks were sent by the L.O.D. E. Women's Institute and others.

The horse work so far six district nurses who have carried out their regular work.

Many residents in the rural areas have been interested in the clinic's services.

Protesting against the treatment given Germans living in Russia by the Nazi regime, the German embassy in the city Wednesday afternoon from the Steuben Society, a German defence league, with headquarters in the United States, called upon the U.S. government to do all in its power to remove its unfortunate citizens from Russia.

Arrangements for halls at various points were in charge of the L.O.D. E. Women's Institute and others.

Gleaned From Today's News

Pilot Archie McNaull of Canadian Airways, Limited, left from South Cooking Lake Wednesday morning. He had with him a passenger bound for Great Bear Lake.

Expressing satisfaction at their two visits here to study government and business conditions in Alberta, J. T. McCutcheon, Ontario civil service commissioner and G. W. McPherson, director of forests left for Vancouver and Victoria where a similar study will be made of British Columbia methods.

POSTMASTERS' PENSION PLAN IS DISCUSSED

Postal Official Points to Hardships in 10 Per Cent Slash

That in all probability a pension scheme will be introduced in the N.W.T. by introducing C. H. Hale, district superintendent of postal service, was official that the postal head department will be able to move on the midway plot.

Mr. Hale, who spoke on behalf of the Postmasters' Association in the Macdonald hotel, said H. Morgan occupied the chair.

GOOD FLYING

Explaining the great advances in aviation in the north, Mr. Dickins explained that during the summer months good flying conditions of the country was secured. Out of the total air-mile trip of 1,400 miles, the mail was carried 1,000 miles by air, leaving the Arctic Ocean, there were only 150 miles of rapids where fliers could have had trouble.

Had it not been for the postal department, he said, flying was off.

Continued on Page 15, Col. 5

Explaining the superannuation plan for postmen, Hale said that this would apply only to those postmen whose offices earned a revenue of \$1,000 or more.

The retiring age would be 65 years and the scheme would apply to the Postmasters' Association in the Macdonald hotel.

He told reporters that a ten-cent reduction in the 10 per cent reduction of the pension plan would have been a difference of five cents.

Continued on Page 15, Col. 5

THE INQUIRING REPORTER

For many years, mothers-in-law have been the butt of jokes from innumerable sources. Stage comedians have subjected them to ridicule, old timers in the show business, Joseph M. Cawley, at Black wending his way north on McDougall avenue; A. Archibald driving east on the main stem highway, and Queen's avenue; Bertie Miller at the summer school; and Marcelle, looking over her garden about 9 a.m.

"Fit for a princess." Princess Elizabeth held an informal "at home" to celebrate the erection, at the Royal Lodge, Windsor, of the miniature Welsh cottage presented to her by the people of Wales. She is standing in the doorway.

Britain's newest flying fortress. Reputed to be the world's largest military aircraft, this six-engined monster is being completed at Rochester, England. Weighing 32 tons, it will be used for open sea reconnaissance.

Londoners smiled when it was announced that the World Economic Conference would be held in the Geological Museum, but they came to cheer as delegates gathered from all parts of the earth. Photo shows a section of the crowd greeting early arrivals.

And everywhere that Franklin went the limb (of the law) was sure to go. President Roosevelt is plagued with poking pressmen or protective policemen, even when he takes a holiday. Here's his yacht, *Amberjack II*, headed for Maine, closely watched by coastguardsmen.

A real fighting duck and her brood. Just like a proud mother duck with her offspring clustered about her, this mother ship and five ugly ducklings made a picture on an interesting appearance on their arrival in Bermuda. The naval ship, Falcon, of the U.S. navy and her "subs" were given a great welcome by the municipal government and the port of the British navy which is stationed there.

Grim determination personified. A young competitor in the under 10 years race at the South London schools sports held at the Crystal Palace, London, recently.

Hopes to get \$75,000 for the death of her parents. Miss Anne Malek, 18, of San Francisco, Calif., recently signed papers to begin proceedings to be taken through the state department for the death of her parents, who according to the girl were killed by Turkish soldiers in 1918.

Princess Alexis Mowat shown with her husband, the prince. The princess is the former Miss Barbara Hutton, heiress to the Woolworth millions. The photo shows the couple when they journeyed out to the polo field.

Canadian minister of marine honors valorous seamen. Hon. Alfred Duranleau (left) went to New York to present Captain Thomas of the French line, Dr. Gouin with silver plate binoculars to Lieut. Hamon, cash to others who saved the crew of the schooner Clementine last December. Senator Rainville of Manitoba is also shown.

Lake tragedy. When an airplane dived into Lake Michigan, near Keweenaw, the four passengers tore out and emptied the gas tank, put Mrs. Rennie Jr., atop. Her husband, uncle and mechanic hung on until numbed, then perished. After 33 hours, Mrs. Rennie was rescued.

Lit-instat. When Austria rounded up Nazi agitators on Adolph Hitler's pay-roll, the Nazis returned the employes, including Dr. Erwin Wasserman, shown here.

Royal lovers go a-yachting. The Prince of the Asturias, who wed Comonera Sennia Edelma Sampedro Ojeo de Cuba the other day, is shown (back to camera) with his fiance and friend, yachting on Lake Leman, Switzerland. They were married at Ustmann.

Truly a depression car. This car, driven by Vince Bennett, was run through Hollywood on a quart of gasoline. It is so light that if any mechanical trouble develops you can also save money by picking the car up and carrying it up to the garage. It is shown being jacked up with Bennett still at the wheel ready to be towed to the nearest garage.

OBITUARIES 5

NICK HENRY, 70, DIED SUNDAY.
His funeral service of Helen Johnstone, widow, wife of John G. Henry, 62, who died June 21, was held at 1 p.m. on July 22, aged 69 years, with Rev. J. Howard and McBride's chapel officiating. Burial took place in the Edmonton cemetery, accompanied by the Rev. Wm. A. McLean, Wm. H. Gill, H. G. Miller, D. J. Galbraith, W. H. G. Atkinson, and Rev. J. C. McLean. Memorial services were held at the home of Mrs. Harold S. Moody of Los Angeles, Calif., and at the home of Mr. and Mrs. Luke Hawkes, three brothers. John Henry, son of Nick, died in 1925 at the age of 25 years, and his wife, Mrs. Mary Johnson, of St. Helena, Calif., died in 1928 at the age of 21 years.

MRS. LAURA MAY BETTS.
LAURA MAY BETTS, beloved wife of James Betts, died at 10 a.m. yesterday morning at an Edmonton hospital on Lincoln Avenue. She had been ill for several weeks and was visited by her husband, one son, Jack, and two daughters, Mrs. Lorraine Betts of Philadelphia, and two sisters, Irene and Anna, both of whom were visiting from the United States. Her funeral service will be held on Thursday afternoon at 2 p.m. at the home of Mr. and Mrs. Howard and McBride's chapel. Rev. G. F. Smith officiating. Interment will take place in the Edmonton cemetery, accompanied by the Rev. J. Howard and McBride's chapel.

MRS. MARY EVA BOWDEN.
MRS. MARY EVA BOWDEN, beloved wife of Mr. T. C. Bowden, passed away at her home, 1004 10th Street, at the age of 25 years, on July 22, 1933. She is survived by her husband, one son, Robert, and two sisters, Irene and Anna, both of whom were visiting from the United States. Her funeral service will be held on Thursday afternoon at 2 p.m. at the home of Mr. and Mrs. Howard and McBride's chapel. Rev. G. F. Smith officiating. Interment will take place in the Edmonton cemetery, accompanied by the Rev. J. Howard and McBride's chapel.

Girl, 12, Boy, 14, Have Right To Wed In Alberta

PARENTAL NOD NOT NECESSITY FOR MARRIAGE

**Attempt to Annul Nuptials
is Denied by Alberta
Appeal Court**

CALGARY, July 26.—Alberta court of appeal has ruled any girl over 12 and any boy over 14 years of age can marry without the parents' consent as far as provincial laws are concerned, declaring such cases are unconstitutional.

This judgment has handed down following a hearing of a case in which a mother attempted to have the marriage of her daughter nullified on the grounds both the daughter's and youthful husband failed to obtain her consent.

The girl was 19 years of age and the boy 20.

The court held the marriage was valid in handing down judgment. A minority opinion of two judges were overruled by Justice Clarke.

The appeal court held the province had no right to legislate upon the advisability of parental consent being given to a marriage solemnized. This is exclusively the affair of the dominion government, it was held, and the province has merely the right to regulate contracts of marriage, residence and not on the capacity of the persons concerned.

Mr. George A. McGillivray suggested the attorney-general of Alberta take the case to the supreme court.

The parties to the case were Calgarians married in Okotoks in 1922.

Japan May Contest France's Right To Nile Coral Islands

TOKYO, July 26.—An investigation would be justified in contesting Japan's claim to the right to mine France's recently announced acquisition of nine hitherto unclaimed islands in the South China Sea, being conducted by the foreign office.

The islands lie between the Philippines and the coast of China at 11 degrees north and 113 east.

On March 29, Niagara Falls nearly dry.

Klondike Kate Weds Yukoner

A romance which began in the backyards of Dawson City, Yukon, ended in the Alaskan gold rush, resulted in the marriage at Vancouver recently of "Klondike Kate" Rockwell, once the toast of the Yukon and John Matson, Alaskan gold miner. Matson fell in love with her in 1902 but was too retiring to press his suit. Fortune separated them until recently he learned she lived in Bend, Ore., and sought her out.

SILVER AS COIN NOT COMMODITY

SALT LAKE CITY, Utah, July 26.—"No silver plate is sound which does not recognize the white metal as basic money," Monty Ferry, president of the American Silver Producers' association, testified with reference to the London silver sales agreement.

"Nothing short of that will meet the test of time," he said. "A mere tally treating silver as a commodity is only while inadequate, although as a preliminary step it may perhaps be helpful."

Superbrains

NEW YORK, July 26.—Dr. Walter Franklin, a philosopher from California, has started to produce super-brains.

He says the California climate will improve the human body just as it perfects the human body and that mental giants will result.

"It is conceivable that our de-

gates, a few of whom understand the so-called silver question, could be induced to agree to any plan which would recognize the white metal as basic money." These delegates carried with them to London the exact same statement of the principles of the house to labor untrammelled by the restriction of silver as basic

"Nothing short of that will meet the test of time," he said. "A mere tally treating silver as a commodity is only while inadequate, although as a preliminary step it may perhaps be helpful."

NEXT MEETING WORLD PARLEY IN SEPTEMBER

**Geneva to Be Scene of
Session According to
Programme**

LONDON, July 26.—The next meeting of the world economic conference after its adjournment Thursday will be held in Geneva in September, according to the programme drawn up today.

On Thursday, the steering committee will meet in Geneva to reconvene the conference whenever there is likelihood of the discussions being resumed.

Plans for continuing the work of the parley were completed and submitted to the committee for adoption late today. Prime Minister Ramsay MacDonald, the president, assembly reported, presided over the majority of the meeting and the work undertaken and accepted.

The members will have an opportunity to voice their final opinions on the questions before the Thursday session, which probably will last all day long, with Mr. MacDonald presiding in his capacity. Others to speak are Neville Chamberlain, chancellor of the exchequer; Sir John Simon, the United States Finance Minister Guido Gianni of Italy and Finance Minister Georges Bonnet of France.

THE DICKINS

CONTINUED FROM PAGE NINE

WINNIPEG, July 26.—Happened by lack of rain, 100 Manitoba fire rangers last night were striving to cope with a series of outbreaks of forest fires in the northern forests. Five fires were reported yesterday.

Parcels were and directed out into the bush where they were difficult. Carelessness of campers was blamed for some of the fires. All fires were under control, however.

Estimates of loss of his crops from the fires were put at 1,000 tons in the Beaujouar area. Some of the crops had already cut but were still standing upright and day to avert further loss.

North West territories would not have received the impetus that is needed if the mail service had not been successful in that distribution of mail in that country to convince eastern aviation officials that this land held great possibilities as far as aviation.

He mentioned the fact that Thomas Reilly, of the Edmonton Aeroplane Co., had the first post official to make a flight with him on the Yukon and across the Arctic.

Reilly, who had been engaged as distributor of mail by the post office to be implemented in the Orient and Asia.

The fastest mail service to and from the Orient and Asiatic points was established by the Orient Line.

Reilly traced an airline to Asia through the Yukon and across the Arctic.

Flashings on the screen two days ago showed pictures which he had taken during his routes of the Orient and Asia.

He also gave a vivid picture-story of life in India and the progress

lives, but Kondrak'sfeat was an accident. Swimming is a rare sport in Canada, he said, and he has been swimming to his life, he succeeded in swimming to the Canadian shore. Layout shows Kondrak and whirlpool.

Brokers handling the issues were asked to submit their reports at low option prices, listed them on the Chicago Commodity Exchange, and sold at 33 per cent above the price of the stock was said to have been reported in the breweries to many instances.

According to estimates, a woman requires only four-fifths of the food necessary for a man.

activity in one of Canada's most interesting fields, showing the vast development which has taken place in the Great Bear Lake district, was held up a comparatively short time ago.

GREAT DEVELOPMENT The Dominion would see great developments in that country during the next two years, Mr. Hale prophesied.

He spoke of the air route from Fort McMurray to Cameron Bay or Echo Bay, which he believed to be the best and greatest air route in Canada. He did not believe land traffic would ever be feasible through the mountains north of the 66th parallel, although he said road had already been built to a point some distance from Fort Vermilion.

ALBERTA POSTMASTERS Postal inspectors graded the Alberta postmasters for the type of service they were giving to the department.

Companies which kept them there described as the "call of the north." Trappers, prospectors and miners were the chief customers and even those who occasionally left civilization to plunge into the unknown, were the best customers.

He mentioned the fact that Thomas Reilly, of the Edmonton Aeroplane Co., had the first post official to make a flight with him on the Yukon and across the Arctic.

The speediest flight through the Great Bear Lake country a year ago last June with Mr. Dickins and Mr. Reilly in the flight with Pilot W. H. McLean. He did not really need the educational experience, however, as he had been taken in hand by the mail service.

He did not really need the educational experience, however, as he had been taken in hand by the mail service.

Following a recent survey, it has been discovered that out of 3,584 parcels sent to the postmasters in the association had done much to better mail service and the organization was held in high regard by the postmasters in the association.

Excellent "sausos" of mining ac-

tioned to the vast hinterland in that country depended on the person who would go into the wilds, pioneer and stay with the country.

That mysterious power which impelled men to go into the unknown lands and which kept them there described as the "call of the north." Trappers, prospectors and miners were the chief customers and even those who occasionally left civilization to plunge into the unknown, were the best customers.
